COLUMBIA HEIGHTS CITIZENS. Animated Collogny at a Meeting of the Association.

The meeting of the Columbia Heights Citizens' Association at St. Stephen's Hall last evening was a rather brief one, but during the session there was a miniature Tom Reed-Jerry Simpson time, President M. A. Ballinger enacting the role of the man from Maine, and Mr. Leo Simmons taking the place of the alleged sockless

M. A. Ballinger enacting the role of the man from Maine, and Mr. Leo Simmons taking the place of the alleged sockless statesman.

Mr. Simmons owns property on Kenyon street, and another property owner on that thoroughfare, Mr. Calhoun, had offered a resolution directing that the association request the District Commissioners to insert in their estimates for next year an appropriation of \$10,000 for the improvement of Kenyon street between 7th and 14th streets. Several members supported the resolution, in brief remarks, but President Ballinger suggested that it would be practically useless to ask for such a large amount for any one street, explaining that only about \$23,000 had been expended for the improvement of all streets between Florida avenue and Columbia street. He advised that a smaller sum be asked for, or that the amount be left to the discretion of the District authorities.

By a close yote—4 to 5—the motion was defeated, when Secretary Simmons offered a resolution asking for the improvement of the street, but omitting to mention any sum, although putting the item at the head of the estimates. It was then that Mr. Leo Simmors, with not a little warmth, complained that the association was subject to the ene-man power. It appeared, he declared, that whenever the president of the association opposed any motion or project, the members, for some reason or other, sat mute and offered no opposition to his wishes. If that thing was to continue, he said, the association would better disband, for no one would be able to get anything triess the president of the association should first approve it. He had been told that it has got so that a request from this association has the same effect on the District authorities that the shaking of a red flag in the face of a bull has on that animal. He had also been told that at the District authorities that the shaking of a red flag in the face of a bull has on that animal. He had also been told that at the District authorities, and remarked that he had concluded, quietly

for the president when opposing any mo-tion or desiritg to make any remarks to leave the chair and take his position on

the floor.

Other matters transacted by the association were the adoption of a resolution, offered by Dr. Gibbs, asking for the dedication of the lot at the northwest corner of 14th succet and Columbia road for a park, and the adoption of a resolution offered by Dr. Jameson, requesting the District authorities to open School street. G. V. Fisher, N. T. Haller and Thomas A. Gary were elected to membership.
